I presently have two children at the College of Charleston. They do not have automobiles because of the parking constraints within the historic district. They both use Uber almost daily. As a frequent visitor to Charleston, I can tell you that your existing cab services are generally unfit for public services. The cars are almost always very old, absent of seat belts and air conditioning, etc.,. If you all want more college kids driving cars around downtown Charleston, then continue your fight against Uber. Mine will have two more there very shortly. Uber provides a safe, effective, and reliable way for people to get around. SC cabs do not... Period! Charles Worthen 404 290-1975 4799 Northside Drive, Atlanta, Ga 30327

Subject: Uber

The recent cease and desist order issued to Uber is an absolute joke. I hope that this gets looked at real closely because this program is the best program we have seen in ride sharing in SC. I can not tell you how many people I have run into since Uber came to Charleston that decided to get a ride from Uber than get behind the wheel intoxicated. As a husband and a father I find this program, not only a convenient and enjoyable service, but also a service designed to keep drunk individuals from driving on our roads.

The tax paying, law abiding citizens of SC deserve to have a choice! If cab services were not as poor as they are in SC, I might understand your point. Unfortunately, low service and price gouging just seems to be their business model.

I hope that you give some serious thought to this. This is an absolutely fantastic service, using current time technology, that people enjoy. SC taxpayers deserve to have a choice, and the fact that you take that choice away is a travesty.

Did you do any research at all before making this decision?

UberX rides are insured up to \$1,000,000, **which is 20x the \$50,000 required of taxis in the state**, and all drivers on the uberX platform must pass background checks at the county, state, and federal level before they are able to drive on the Uber platform.

Bring back Uber. If you've ever ridden in, or even driven near, a Charleston taxi you should readily understand why people are so excited about Uber. If you are against clean vehicles that safely transport people on time and for a fair price, then something is very wrong.

Sincerely,

Paul Rahn
